Ms. Margaret A. Dale
Ms. Elizabeth L. McKeen

Re: Motion by Windmar Renewable Energy Identifying Potential
Witnesses for 1919 (sic) Motion Hearing

Dear Ms. Dale, Ms. McKeen:

I received your letter of June 3, 2019 (11:46 p.m.), which I was not able to see, due to prior commitments, until, today June 5, 2019.

Of course Windmar, a top player in Puerto Rico's, renewable energy market will insist in testifying at the 9019 motion hearing.

Mr. Víctor González, as principal of Windmar has direct knowledge of the economic and legal framework of the renewable behind the meter energy production and of the taking and damage the RSA does to the renewable, behind the meter self-production in Puerto Rico.

Also Mr. González has personal knowledge of the, at best erroneous, statements that are presented to support the RSA, and how the RSA is not "fair and reasonable" and not in the "best interest of the estate".

It is certainly strange to hold that Puerto Rico's biggest developer and installer of individual residential unit's solar panels (both with and without batteries) has "nothing relevant to say" on the 9019 motion. The RSA impact, changes and dismantles unilaterally the legal, economic, contractual and financial model under which the industry operates and pretends to use third party non PREPA revenue, not part of PREPA's income, to pay for bonds to which such revenues were never pledge.

Mr. González is available for the deposition.

Sincerely yours,

Fernando E. Agrait
